

We decided to put the port-a-cools up
for the winter. [REDACTED] went and got the J.D.
TRACTOR. [REDACTED] loaded one on the tractor.
I told them to wait till I clean
the spot where they would go. I used the
shop vac. to clean the area. [REDACTED] was in the
tractor and [REDACTED] was talking to him w/
the right door open. I was tapping on the
roll around ladder to get his attention. It
seemed they were ignoring me, so I said
pay attention, lets get moving. [REDACTED] then
said we don't do sign language and laughed.
He approached the ladder. I was in
the process of tossing the extension
tube I used on the vacume, I said
here, but he did not see it coming.
The tube hit him in the nose.
He said you hit my nose.
